

AVON[®]

BOATING EXCELLENCE

"You may spend more time on your jet tender than on your yacht"

AVON, THE WORLDWIDE SPECIALIST IN JET RIB TENDERS

AVON has an enviable reputation among the most discerning of boating enthusiasts, boat builders and professional users world-wide. More than 50 years of experience has allowed us to become the worldwide specialist in Jet Rib Tenders.

Attention to detail and quality standards ensure that AVON maintains its premier position in world markets. Our global network ensures we are well equipped to meet the needs of our global customer base and deliver a first class product and service support wherever it is needed. AVON is offering a wealth of experience and expertise that is difficult to match.

THE FINEST DESIGNS AND HAND BUILT QUALITY

Continually keeping ahead of the increasing demands of our marketplace has always been a key component of the AVON culture and is a cornerstone of our continued success.

Our 2012 range of Seasport Jet Tenders combine our expertise and traditional skills with the latest available design technology and flair. Carefully designed products, individually hand built by skilled craftsmen to quite exceptional standards, are as much our hallmark today as they have been throughout our history. We have fine tuned our range to meet the needs of the most discerning of users.

SEASPORT JETS

The Avon SEASPORT JET range, famous for its great design, quality and performance has now been renewed and enriched with a new SEASPORT JET 380 to offer even more to its customers.

POWERFUL AND RELIABLE ENGINE

SEASPORT JET 330, SEASPORT JET 380, SEASPORT JET 430: these three crafts, all styled to perfection and powered by a super charged 4-stroke 98 HP* jet unit, provide exhilarating and safe on water performance for tender duties, water sports towing and great fun!

MANY SEATS, INCREDIBLE SPACE

The SEASPORT JETS have been specifically designed

to provide more internal space and comfort than most of Jet Rib Tenders of the market. The range is offering two real seats at the rear and from 1 to 3 seats at the bow (depending on the models) which is very rare on jets tenders of this quality. It optimizes each transfer from the yacht to the harbour or to the beach.

CHOICE OF 3 TUBE COLOURS TO FIT YOUR YACHT WITH PERFECTION

All 3 models in the SEASPORT JET Rib range are now available in three tube colours (grey, navy blue and camel) keeping the stylish and innovative design that has become a hallmark for the range.

Their tubes are manufactured using the best quality

Hypalon™-Neoprene™ fabric and are now removable (380/430) for ease of maintenance. They are all tested in our laboratory, and are perfectly and totally able to be used in tropical conditions and permanent exposure to UV rays with confidence.

HIGH LEVEL EQUIPMENT

The level of equipment featured on the SEASPORT JET range has been upgraded. These include comfortable upholstered seats, luxurious teak deck** (now also available in synthetic), telescopic bathing ladder**, as well as high quality flush mounted stainless steel fittings. These ensure that your craft is simply second to none.

Always designed with the customer in mind, every single

detail has been thoughtfully studied in order to permit passengers a comfortable ride and ease of access on board (boarding step with stainless steel pole on 380 / 430**).

EASY STORAGE AND MAINTENANCE

All the SEASPORT JET's sleek lines and their adjustable steering wheel angle will enable easy storage inside the garage, on the stern platform or flybridge of your yacht. The SEASPORT JETS have also been optimized on many technical points (electric components accessibility, engine protection, etc.) in order to ease their maintenance.

*104 HP for US marked model.

**Available as an option.

EQUIPMENT

STANDARD FEATURES

- Streamline profile buoyancy tube (choice of medium grey/navy blue/camel accents)
- Removable tube system (380 / 430)
- Medium "V" fibreglass hull

Indicated measurements may vary by +/- 3%, or +/- 5% for weight and speed measurements. (1) Maximum permitted load is calculated using ISO standards. Caution is advised when operating fully laden boats. (2) Recommended power is based on optimal use of the boat's abilities under average load. Depending on use, choose either maximum (waterskiing) or minimum power (fishing, cruising). (3) The manufacturer's plaque specifies maximum permitted power. The power of your boat must not exceed this under any circumstances. (4) Maximum permitted weight: dry weight, according to motor manufacturers' catalogue specifications. (5) Maximum speeds are intended as a guide only; they were measured in ideal conditions by professional pilots with one person aboard. They may vary according to make of motor, boat load, propeller type and water conditions. (6) Models in this catalogue are sometimes shown with optional accessories. Please check standard equipment supplied with each model and see your reseller for any additional equipment. The availability of certain models, as well as certain equipment details may vary from country to country (e.g. USA, Canada). The boats photographed in this catalogue may have undergone changes. Avon™ continually strives to improve the quality of its products and as such reserves the right to modify or delete any model presented in this catalogue without prior notice. Zodiac™ recommends to wear life jacket at all times; it is your own responsibility to check the legal obligations on your navigation zone.
